

Due Wednesday --If you have any word pair (or trio) listed under “Words to work on,” on your pretest, you **must complete** the exercise for that word pair that appears in *Evergreen* Chapter 35, pages 461-472. Be sure to read the explanation about the words that appears before the practice to help you understand how to use each word. The sentences in the practices should be written out legibly and proofread. You only need to complete the practices for any word set that I’ve listed on your sheet (not for all the word sets in the chapter.) For example, if your only error was *supposed/suppose*, you only need to do the sentences in Practice 13, page 467.
